

Providing Your
Practice with
HA Injections
and a Complete
Suite of Support
Services.

5 injection hyaluronic acid regimen

Experience the Difference.

When it comes to hyaluronic acid (HA) injections, your success is our success. That's why we're always looking for ways to ensure every engagement and interaction with us is simple and stress-free. We're committed to your practice by providing not only GenVisc®850 but also HARMOKNEE* — our comprehensive suite of practice support services designed to make accessing HA for your patients easy, while saving you time.

Unique reimbursement code J7320

GenVisc850 is indicated for the treatment of pain in osteoarthritis (OA) of the knee in patients who have failed to respond adequately to conservative non-pharmacologic therapy and simple analgesics. GenVisc850 is approved in 69 countries with over 45 million syringes distributed worldwide.¹

Proven^{1,2}

- GenVisc850 has the largest and longest duration double blind clinical study of hyaluronic acids for knee osteoarthritis[†]
- GenVisc850 has been published in over 30 clinical studies[†]

Effective^{1,2}

- Demonstrated improvement in pain relief may last up to 30 weeks post first injection cycle[†]
- Demonstrated improvement of total WOMAC index at 30 weeks: Pain, stiffness and functional capacity[†]

Safe^{1,2}

- Safe as saline placebo[†]
- Free of avian proteins[†]
- Demonstrated safe for repeat injection cycles[†]

HARMOKNEE
